

Infinity MDR/MPR

Managed Prevention & Response

The Leading Prevention-First MDR/MPR

Managed Prevention & Response elevates traditional MDR services with continuous updates, automated prevention actions, optimal configurations, recommendations, and best practices to improve defenses and prevent future attacks.

Infinity MDR/MPR is powered by the industry's top experts and leading AI technology to proactively prevent, monitor, detect, investigate, hunt, respond, and remediate attacks on customers' environments.

We monitor your security estate 24X7, covering your entire infrastructure: network, endpoint, email, cloud, mobile & IoT, make informed decisions to stop attacks, and improve defenses to prevent future attacks.

Prevention-First

Best practices to improve defenses and prevent future attacks

Simplicity

24x7x365 service by our elite experts

Elevate Security

Advanced threat prevention powered by AI-based analytics

One Solution

Prevent, monitor, detect, investigate, and remediate attacks

Optimized Prevention: End-to-End Proactive SecOps Powered by Industry Leading Analysts

- We perform in-depth incident investigations and proactively hunt for threats using the industry's most powerful threat intelligence, AI analytics tools, and Mitre Att&ck.
- Ongoing ThreatCloud updates continuously improves threat prevention capabilities.
- The MDR/MPR team rapidly responds to real threats, using orchestrated responses with automated playbooks to remediate your environment & improve defenses to prevent future attacks.

Incident Response Included: When an MDR Analyst determines that an incident needs a broader response, we've got your back. Our MDR solution includes up to 100 hours of IR Services for incidents identified through solutions that we are monitoring.

Incident Response Team

Proactive Incident Response,
At a Moments Notice

The Three Steps: When in an Emergency

1

Preserve the Crime Scene

Collect attack details from your team. Include your assessments of the security attack, how it was discovered, possible cause(s), its impact, and any initial actions you've taken.

2

Contact Us Now

Call us toll free using the emergency response number (+1-866-923-0907). You do not have to be a current client or Check Point customer for this initial contact.

3

Get Back on Track

We will identify points of compromise, provide daily Active Threat reports, & work with your team to fully eradicate the threat. We'll also help you communicate the details and ramifications of the attack back to your business and management if needed.

Incident Response Services:

Instant Response

Dedicated 24/7 experts respond immediately to any security attack. This includes denial of service, malware, virus, data loss incidents, & more

Speedy Recovery

Accelerate your ability to contain threats, reduce downtime, limit damages & costs, and keep your business running

Mitigate Future Risk

After an incident, we help you apply industry best practices to strengthen your security controls & provide the latest threat intelligence

Infinity MDR/MPR Key Benefits

- **The leading prevention-first MDR/MPR solution;** continues updates, automated actions, configurations, recommendations, and best practices to improve defenses and prevent future attacks.
- **Simplicity** - the industry's top analysts, incident response, and research experts – Deliver prevention, investigation, response, and threat hunting service 24x7x365.
- **Elevate your security** - Advanced threat prevention powered by AI-based analytics, leveraging big data threat intelligence aggregated from hundreds of millions of sensors.
- **One solution** - Prevent, monitor, detect, investigate, and remediate attacks.
